**Double Grip Retrievable Packer**

Model 'ETI-R3'

**DESCRIPTION:**

The 'ETI-R3' is a medium duty, compression set, retrievable packer that has proved reliable by its many years of world-wide use.  
 A large bore version is available to run on 2-7/8" tubing in 5-1/2" casing only.

**APPLICATIONS:**

The 'ETI-R3' double-grip is used for production, stimulation and testing where pressure differential from below the tool is expected.

**FEATURES:**

- Large built-in bypass speeds equalizing and resists swab-off.
- 30" stroke makes spotting or circulating fluid easier without unseating the packer.
- Three element packing system is field proven to be dependable.
- Rocker-type slips are rugged and reliable.
- Hydraulic, button-type hold-down located below the bypass.
- Built-in differential lock actuated by pressure from below helps keep bypass closed.
- Equivalent to and parts interchangeable with Baker Product No. 642-01.
