**On/Off Tool**

Model 'ETI-FL'

DESCRIPTION:

The 'ETI-FL' On/Off tool is a two piece, left hand release, tubing disconnect device that has an internal locking groove for wireline flow control equipment.

APPLICATIONS:

The 'ETI-FL' On/Off tool can be used with most mechanically locked packers, that do not require tubing compression or tension to maintain a pack-off, to disengage the tubing.

The 'ETI-FL' can be used in production, treating, testing and other remedial operations.

FEATURES:

- Left hand release, auto-on.
- Right hand release (optional).
- Durable bonded seals allow multiple disconnects.
- May be set for shear up or shear down release for safe running.
- 300 series stainless steel seal nipples are standard.
- Type 'F' and 'R' profiles are standard. Others available upon request.
- Pressure rated to 6000 psi internal and 8000 psi external.
- Equivalent to and parts interchangeable with Baker Product No. 683-14.

Tubing OD	'F' Seal Nipple ID	Casing OD	Overshot OD
2-3/8	1.781	4-1/2	3.750
	or 1.812	5	
	or 1.875	5-1/2	4.500
