**Setdown Retrievable Packer**

Model 'ETI-G'

DESCRIPTION:

The 'ETI-G' Packer is a compact, economical compression set, casing packer.

APPLICATIONS:

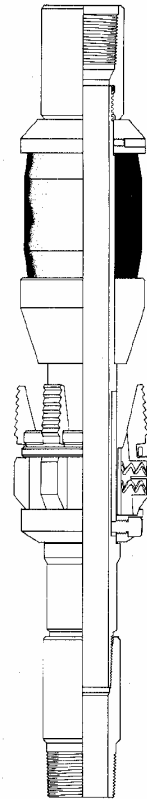

The 'ETI-G' is used by itself for production applications. When combined with an unloader and hold down mechanism it can be used for well stimulation, testing and other pressuring operations and then left in the well as a production packer.

FEATURES:

- Rugged rocker-type slips and one piece packing element.
- Full-opening bore through the packer.
- Inexpensive.
- Easy to set and release.
- Safety joint for emergency release.
- Can be run upside down as a tension packer without the emergency release.
- Equivalent to and parts interchangeable with Baker Product No. 420-03.
