**Anchor Catcher**

'ETI-TM'

DESCRIPTION:

The 'ETI-TM' Anchor Catcher is a reliable tool which acts as an anchor to maintain tension in the tubing string during the pump cycle and as a catcher to prevent parted pipe from falling.

APPLICATIONS:

The 'ETI-TM' Anchor Catcher can be used in any rod pumping operation.

FEATURES:

- Two sets of directional wickers on each slip prevent upward or downward movement.
- The 'ETI-TM' Anchor Catcher prevents vertical tubing movement during the pumping cycle and improves pump efficiency.
- Reduces down time, cyclic stress and wear on both rods and tubing.
- Small outside diameter permits fast running and retrieving speeds.
- Straight pull, shear release for emergency situations.
- Equivalent to and parts interchangeable with Guiberson Model TM.
