**'ETI-CR' Accessory****Stinger Seal Assembly**

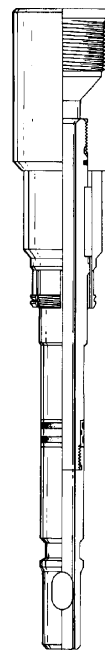

Model 'ETI-SSA'

DESCRIPTION:

The 'ETI-SSA' Stinger Seal Assembly is used to seal into and shift the sliding valve in an 'ETI-CR' Cement Retainer. The 'ETI-SSA' should always be run with an 'ETI-TC' Tubing Centralizer to provide for easier entry into the Cement Retainer.

FEATURES:

- Built in snap out indicator provides positive control when the work string is picked up to close the slide valve. Re-engages each time the work string is lowered to open slide valve.
- Snap in design helps prevent seal from pumping out during pumping operations or tubing testing.
- One size operates several sizes of retainers.
- Released by straight pull or rotation.
- May be used with Baker Cement Retainers.
- Equivalent to Baker Prod. No. 400-92.
